

DUMAS 1

Festuca trachyphylla

Hard fescue

Simply the best...

- High tolerance to all major diseases
- High persistency
- Summer and winter appearance at top level
- Improved wear tolerance

Ratings

Density

Red thread tolerance

Salt tolerance

Close mowing tolerance

Needle's Eye

Hard Fescue is a species very difficult to improve and only a few selections pass the eye of the needle and enter the French National catalogue.

DUMAS 1 did it!

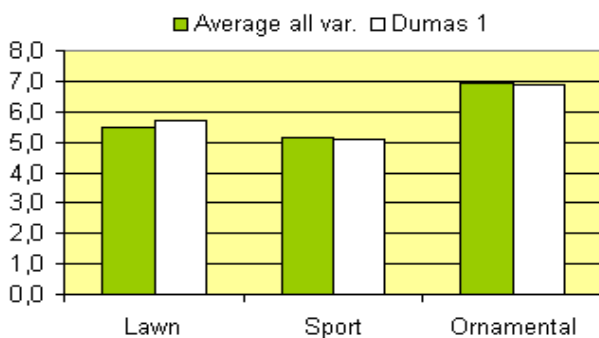

Top Ratings

Not a surprise that DUMAS 1 made it - it accumulates top scores for all features with no weak sides at all. In particular DUMAS 1 withstands all major diseases, including leaf spot.

Summer & Winter aspect both at high level

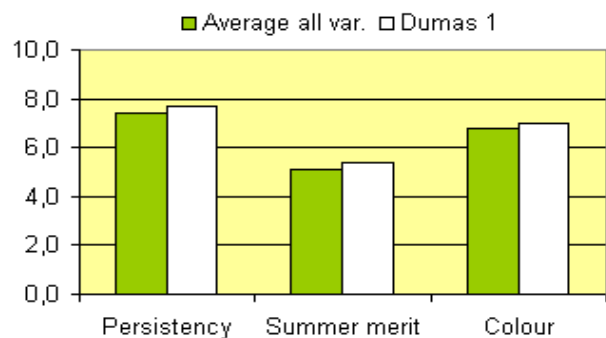

One reason for choosing hard fescue is a rather good appearance in dry conditions - and DUMAS 1 does very well during summer. With a fine winter aspect, it allows high general impression year round.
