## Ratings

### Red thread tolerance

### Salt tolerance

### Shade tolerance

### Fast establishment

### Density

### Fineness

sowing Rate:	25-35g/m <sup>2</sup>
Oversowing:	10-25g/m <sup>2</sup>
Mowing Height	Down to 3.5mm

- **100% Slender creeping red fescue blend designed for maximum salt and drought tolerance under links golf conditions & sustainable management programs**
- **Top rated cultivars with New Seroa for exceptional shoot density & proven results**
- **Drought tolerant**- in our radimax root trials cultivars are selected for improved drought tolerance, reducing water inputs
- **High disease resistance** - New 4 cultivar mix for reduced chemical inputs – saves money
- **Salt tolerant** – all cultivars are screened for salt tolerance in our lab for maximum performance under salt laden conditions and improved tolerance to recycled water.
- **Rhizomatous root structure** - improved sward strength and ability to self-repair
