

# EUROCORDUS

*Lolium perenne*

## Perennial Ryegrass

Traveler between the worlds!

- Gives the turf a quality feel
- Tolerates the highest demands
- Suppresses weeds
- Low amount of clippings
- Universal partner for homogenous mixtures in professional sport

## Possible after all!

EUROCORDUS shines due to its high durability and at the same time its excellent suitability as an amenity turf.

Its extremely high turf density and fine leaf texture combined with its high durability has catapulted the variety into the Top 10 of the hard-wearing and amenity turf lists.

EUROCORDUS is bred especially for professional lawn builders who require the ultimate combination of tough sports characteristics and highest esthetical values

## Characteristics

- Extremely high turf density
- High durability
- Quickly established
- Good regeneration ability
- Mid-green colour
