

# CASANOVA

*Festuca commutata*

## Chewings fescue

A Gentleman to the lawn

- Very dense
- Slow regrowth
- Good disease resistance
- Nice appearance during winter

## Ratings

### Density

### Colour

### Red thread tolerance

### Salt tolerance

### Close mowing tolerance

## Casanova

It is a lawn type variety with very good quality especially for all-purpose lawns.

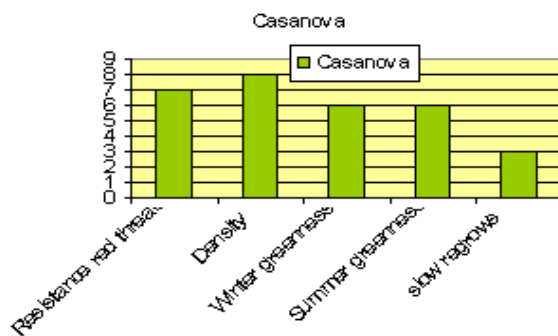

## Dense turf

Casanova creates a very dense turf with a nice and stable middle green appearance all over the year. There is not much difference between the winter and the summer appearance of Casanova. It has quite a good disease resistance against the major lawn diseases.

## Low growth

Interesting is, that Casanova shows very limited secondary growth after cutting means it helps to lower the cutting frequency.

## Quality of Casanova
