Salt tolerance

Close mowing tolerance

Very tolerant to close mowing

Nikky performs very well under close cutting (e.g. golf greens). The rating of Nikky is the highest on the STRI turfgrass list for 2011. Furthermore, the variety has a very nice dark green colour during the whole season. This makes the variety the ultimate choice for golf green mixtures.

Extreme density

The extraordinary performance under close mowing is reflected in the fact, that the variety also has the highest density on the STRI list under close mowing.

Better performance than Musica

For several years the variety Musica has been the best performing chewings fescue variety on the STRI list under close mowing. This position has now been taken over by Nikky, which is seen as a major achievement.
